

Self Framing Metal Building & Foam Panel Installer (Level 1)

About The Role

Join a team where craftsmanship meets innovation! We're looking for skilled builders to specialize in **Self Framing, Foam Panel, and Rigid Frame Structures**. This role is perfect for detail-oriented individuals with a passion for quality work and likes working with their hands.

Key Accountabilities

- Be a contributing member of an agile erection team to assemble and install buildings
- Ensure all work meets quality standards and adheres to safety protocols
- Work collaboratively with team members, including supervisors, subcontractors, and other tradespeople, to meet deadlines
- Safely transport, handle, and install materials including metal panels, framing components, insulation, doors, roll-up doors, and other custom components
- Occasional weekend shifts, overtime and travel work opportunities

What You'll Bring Along

- **Prior experience in framing or carpentry and asset**, though training will be provided
- **Problem-solving ability in a fast-paced environment**
- Clear communication skills
- Physical capability to **handle loads up to 50 lbs** and comfort with equipment
- Valid driver's license with a clean abstract

Benefits

- **Competitive hourly wage**, determined based on experience
- Generous LOA pay and a **phone allowance**
- Extended **health benefits (health, dental benefits,**
- **On-the-job training** to provide a solid foundation and confidence in your work
- Access to over 175 **personal development courses**
- Fun social events throughout the year
- **Employee-Family Assistance Program** to support your well-being

At Metalex, we don't just build buildings—we build careers. Many of our employees have been with us for 5–10+ years, and we're dedicated to helping you achieve long-term success.
