

Sheet Metal Worker

About The Role

We are seeking a **sheet metal worker** to join our growing team. This role is ideal for a highly skilled individual passionate about working with CNC machines, sheet metal roll formers, mechanical brakes, and other metal fabrication equipment. The ideal candidate has related experience, thrives in a fast-paced environment, has a strong mechanical aptitude, and takes pride in producing high-quality, precise work.

Key Accountabilities

- Operate and maintain **CNC machines**, sheet **metal roll formers**, mechanical **brakes**, and other fabrication equipment to manufacture metal components
- Read and interpret blueprints and CAD designs to ensure accurate fabrication of parts
- Perform machine setup, coil changes, and adjustments to accommodate production requirements
- Ensure all fabricated products meets quality standards expected of Metalex products

What You'll Bring Along

- Preference: Sheet Metal Journeyman, Machinist Technician Certificate, or 2+ years of experience operating CNC's, brakes, roll formers or similar
- Skills: Understanding of fabrication processes, including metal forming, cutting, and bending.
- Attention to Detail: A keen eye for precision and high-quality work
- Work Ethic: Individual contributor who can be relied upon by their team members

Benefits

- **Competitive hourly wage**, determined based on experience
- Extended **health benefits (health, dental benefits,**
- **On-the-job training** to provide a solid foundation and confidence in your work
- Access to over 175 **personal development courses**
- Fun social events throughout the year
- **Employee-Family Assistance Program** to support your well-being

At Metalex, we don't just build buildings—we build careers. Many of our employees have been with us for 5–10+ years, and we're dedicated to helping you achieve long-term success.
